

To: MR. Powell;

I like to remind you and your staff that you are suppose to work for us, the public. You are suppose to represent us, and not give up the publics' airwaves. If I'm not mistaken, the country's airwaves are already controlled by a hand full of corporate fiefdoms. And that is why we are not told the truth. This is why a lot of information is kepted from the public. Such as this extremely important matter. Mr. Powell, you should have never accepted this post, if your intentions were never sincere. Instead what I see in your recent actions and attitude, is that of someone that has been bought for. Also, if you further deregulate, you sir will have contributed towards the undermining of our democracy. You would have let this country slide into a fascist state. Many now believe that we are presently in such a state. Prove of this is the fact that you sir, are not paying attention to the public opinion. You are not permitting public debate. It seems that you just want to get this over with and sweep it under the "rug." Why? What are you hiding?? Why are you in such a rush?? I demand as a citizen that you do the right thing for us, for our democracy. And the hell with the corporate pigs' bloody quest for more, and more, and more.....stinking profits and power. Thank you.....I'll be watching this Monday. L.Chavarria
